**Honor Won By
District At The
Provincial Fair**

The District has done well with its exhibits at the provincial seed fair, and Chauvin has gotten its quota of prizes. In fact it has done far better than the most optimistic prophet expected. In all classes the competition was particularly keen, there being over 600 exhibits at the fair.

While the local exhibit won a place for wheat, it is to be mentioned the wheat of Tom Armour with only four points less than the winning wheat certainly was a credit to the district of which we are all so proud. It is also recorded that all local exhibits gained good scoring, and were nearer the top than the bottom of their respective classes. E. A. Pitman won fourth place with his oats, and incidentally the first place went to our

E. Lasell had the honor of taking first place with his flax. Dave Reynolds placed Chauvin in the Corn Belt with his exhibit. In the corn exhibits the competition was centred in

the south, and it is reported that there were some rather signature exhibits in the south, but that Chauvin should take place only in

in compiling the following list of
prizes we have taken notice of all

ing around Chauvin, and extending to Lloydminster on the North. Wainwright on the west, with Provost on the south. There can be no gainsaying that this northern district is well able to hold its own against all "Banana" and "Corn" belts, (so called belts (so called).

GARDENING

(By Local Gardener)

ASPARAGUS

Common Asparagus (Asparagus officinalis) from which the improved varieties in present use have been derived is a member of the Lily family. It is found throughout Europe, and grows wild in the South and Southwestern coasts of England. It is a delicious vegetable coming into use early in the season and on this account should receive more favorable consideration from persons resident on the prairies.

Asparagus is raised from seed, but where only a few plants are required it is better to purchase one year old roots, which can be had at a very reasonable cost from any good nursery.

It requires a rich well drained soil with a southern exposure and should not be planted near trees or close to buildings which tends to produce thin shoots.

To raise from seeds, select ground that has been well worked and thoroughly manured the previous year, loosen up and rake the surface fine, breaking up all lumps. Draw a furrow with the rake or hoe about two inches deep; before sowing, soak the seeds in warm water from 18 to 24 hours. As the young plants are very fine and hard to see, it is a good plan to mix a few radish seeds as they germinate much quicker and with their broad leaves the row is

more easily seen and cultivation can be commenced earlier. Sow the seeds in the furrow early in the spring as possible, covering with fine soil and pressing firmly with the rake or hoe.

As soon as young plants appear which should be from 8 to 12 days, commence cultivation with the rake to keep down weeds and conserve moisture. When the plants are well up thin out to two inches apart. Apply a mulch of well rotted manure at intervals of two weeks to encourage as much growth as possible. In the fall when the plants are withered, cut them down and remove to the rubbish heap or burn. Protect the young plants by covering with manure, and allow to remain in the seed bed until the following spring, when they will require to be removed to the permanent bed.

A permanent asparagus bed if properly made and cared for will continue to yield a supply of good shoots for ten years or longer, it should therefore be located in a part of the garden where it will not be disturbed. Beds may be made about 4 feet wide; any length; and the plants set from 1 1/2 to 2 feet apart each way, or they may be planted in rows, plants 2 feet apart and 4 feet between the rows. To prepare the ground, dig or trench to a depth of 12 to 18 inches deep incorporating a lib with the soil. Remove the soil all over the bed to a depth of about 8 inches and level with the rake. Mark where the plants are to be set and make a small mound of soil for each plant, take the plants and set one every eight mounds spreading the roots out carefully, be sure that the crown is resting on the soil.

After the plants are in position replace the soil about them pressing firmly about the roots, and cover the crowns to a depth of 5 or 6 inches. As the plants make growth keep adding more soil until the bed is level with the surface of the ground. Keep the surface free from weeds and surface by raking and hoeing. If the weather is dry mulch with 4 inches of well rotted manure. In the fall cut pipe tops and burn the refuse, before hoeing up protect the plants with a heavy mulch of stable manure.

As soon as growth starts in the spring rake off the loose straw and fork in the manure carefully so as not to damage the roots. Keep beds free from weeds by frequent light cultivation and when dry weather sets in give a good mulch of well rotted manure. The crop should not be cut this year, but do everything to encourage the plants to make good growth to increase the size of crowns for next year. In the fall cut the ripened tops as in the previous year and burn, then add a mulch of manure to protect the plants.

In the spring remove loose straw from the beds and fork in the manure carefully as before. Keep down weeds and the surface of soil loose with hoe or rake. A few of the stronger shoots may be cut this year but it is better to cut sparingly and allow the strength to go into the crowns for next year when the plants will be thoroughly matured and will stand cutting.

Plants in their fourth year should be gone over each day. In cutting

A BALLAD OF TREES AND THE MASTER

Into the woods my Master went, ..
Clean forspent, forspent,
Into the woods my Master came,
Forspent with love and shame.

But the olives they were not blind
to Him.

The little grey leaves were not blind
to Him;

The thorn tree had a mind to Him
When 'into the woods He came.

Out of the woods my Master went,
And He was well content,
Out of the woods my Master came,
Content with death and shame.

When Death and Shame would woo
Him last,

From under the trees they drew Him
last:

'Twas on the tree they slew Him—
last.

When out of the woods He came,
—Sidney Lanier.

THE INTELLIGENT SENIOR

Professor: What is ordinarily used
as a conductor of electricity?

Senior: Why, er—

Prof: Correct. Now tell me, what
is the unit of electric power?

Senior: The what, sir?

Prof: That will do; very good.

HIS ADOPTED SON

A mother was questioning her little
daughter, aged six.

"Who is the father of the calf?"
asked the mother.

"The bull," replied the youngster.

"Who is the father of the duck-
ling?" continued the mother.

"The drake," responded the child.

"And who is the father of the kid?"
"Charlie Chaplin!"

A DREAD PRELIMINARY

He: "No, Marion, not even for your
make will I comply with the condition
laid down by your father as a pre-
liminary to my marrying you."

She: "W-w-hy?"

He: "W-w-w-hy? What does he
want you to do?"

"He suggested that I should go and
hang myself first."

WHY HE WAS CROAKING

"I have decided to call my home-
brew frog," remarked Nutt.

"Why?" asked Bolt.

But not much kick," replied Nutt.

AN INDEPENDENT WEEKLY NEWSPAPER CIRCULATING THROUGHOUT
ARTLAND, CHAUVIN EDGERTON, RIBSTONE, MERTON, SIFTON, & MANITOU LAKE

VOL. 8: NO. 404. CHAUVIN, ALBERTA, WEDNESDAY, MARCH 1st 1922 5c. per copy \$2.00 per year in advance

Values of Farm

Land & Produce

Greatly Reduced

The average value of the occupied farm lands of Canada, which includes both improved and unimproved land, together with dwelling houses, barns, stables and other farm buildings, is returned to the bureau of statistics as \$40 per acre, as compared with \$48 in 1920, \$46 in 1919, \$41 in 1918, \$38 in 1917, \$36 in 1916, and \$35 in 1915. By provinces, the value for 1921 is highest in British Columbia at \$122. In the other provinces, the average values of farm lands per acre are reported as follows: Ontario \$65, Quebec \$56, Prince Edward Island \$46, Nova Scotia and Manitoba \$35, Saskatchewan \$29, New Brunswick and Alberta \$28.

Farm Wages Lower

For the year 1920 the average wages of farm help were the highest on record. For 1921, the returns show a very substantial reduction. For the whole of Canada the average wages per month of farm helpers were for men \$67 and for women \$42. Including board, the average value of which was \$22 a month for men and \$18 a month for women. In 1920 the corresponding averages were \$86 for men, including board value \$26, and \$77 for women including board value \$20.

Not only do the average values for all descriptions of farm livestock show an extraordinary decrease as compared with 1920 but they are also below the values which were ruling before the war. For horses, the val-

ues are the lowest on record since these annual returns were begun in 1909. For Canada as a whole, horses under 1 year average \$38, as against \$40 in 1920; horses one year to under three years, \$79, against \$102; and horses three years old and over \$123 as against \$151.

Cattle under one year are \$12 as against \$20; cattle one year to under three years \$26 as against \$45 and three years and over \$39 as against \$67.

All Livestock Low

For all descriptions the average value per head for Canada, is for horses \$32 as against \$10 in 1920; for milk cows \$51 as against \$47; for all cattle \$37 as against \$59; for sheep \$6 as against \$10; and for swine \$14 as against \$23. For swine per 100 lbs live weight the average is \$10 as against \$15 in 1920. The per capita values are the lowest of any during the last seven years. 1915 to 1921, except that for swine, the value being in 1915 being \$14 as in 1921.

The average price per pound of wool in 1921 for Canada is 14 cents for unwashed and 22 cents for washed as against 22 cents and 32 cents in 1920.

For Canada the average values per head of each description of farm poultry are returned as follows: Turkeys, \$3.29 as compared with \$4 in 1920; geese \$2.42 against \$2.80; ducks \$1.55 against \$1.50; other fowls 90 cents against \$1.08.

Mistress: "Sarah, have you been meddling with the barometer?"

Sarah: "Yes, m'm, You see, yesterday was my night out, so I put it to fine."

Serious Fire

Narrowly Averted

At Chauvin

The biggest fire that Chauvin ever had was only averted by the prompt action of Bone Page—with one of the small chemical fire extinguishers. Last Thursday at the Alberta Restaurant it was discovered that the the woodwork around the chimney in the kitchen was catching fire. An alarm was given, and the two Chauvin fire engines brought along in quick time, whilst Bone had got to work with the chemical. A few minutes work soon averted further danger, but not before much damage was done by chemicals and water, and structural damage caused by the necessity of uncovering any lurking fire in partitions, ceilings and walls.

At the time of the outbreak the wind was blowing steadily from the south, and had the fire been beyond control there is no doubt that the whole block would have been swept away by the fire.

With the enthusiasm unbalanced by experience the fire fighters took considerable risk by discharging both chemical engines at the same time, but fortunately the fire was quelled and no serious consequences arose.

Dunning May Be

Saskatchewan's

Next Premier

Hon. Wm. Martin, premier of Saskatchewan is in Ottawa and credence is given to the report that he is to be appointed to a newly created judgeship in the Saskatchewan court of appeals and that he will be succeeded as premier by Hon. Charles A. Dunning, one of the ministers in his government. An announcement to this effect is expected in a few days.

Liquor In Alberta

In answer to questions in the house Premier Greenfield stated that the net bonded indebtedness of the Province at February 7th \$38,527,935. The gross indebtedness is \$63,236,856.

The net revenue from transactions in liquor during 1921 was \$250,000 with a total turnover of \$571,862.

Red Cross Notes

The continued cold weather has increased the demands for clothing relief received by the Alberta Division, Canadian Red Cross, with the result that the organization is making strenuous efforts to meet the situation. From many districts come reports that much relief will be needed before Spring.

The fund which is being raised to help out with this work, gains slowly. Contributions to the total of \$1610.40 have been received at the Provincial Headquarters of the Red Cross, O'Sullivan Block, Calgary. Donations made, be made to the nearest Red Cross unit or direct to the Provincial Headquarters.

St. Andrew's Society

A general meeting of the St. Andrew's Society was held in Mr. Keith's office on Saturday February 18th, with a good attendance of enthusiastic members.

Mr. Keith presented a report of receipts and expenditures in connection with the St. Andrew's dinner on January 27th, showing a balance on the credit side after paying all expenses.

A motion was passed expressing the hearty thanks of the Society to the ladies and all who assisted in connection with the Burns Night Celebration.

It was decided to hold a concert in the near future and a committee was appointed to make the necessary arrangements. The date will be announced in a later edition of the Chauvin Chronicle.

A campaign has been instigated by the federal Department of Agriculture to increase the volume and improve the quality of Canadian bacon for the British market. It is realized that by maintaining steady shipments of high class bacon, Canada can retain a discriminating, consuming public overseas that was gained during the war years.

Assorted Cookies, Doughnuts, Muffins and Pies for sale every day at Chauvin Bakery.

Notes From North East

The entertainment given by the Leasig Dramatic Society was a pronounced success. The proceeds of \$36 odd form the nucleus of next years Xmas tree fund.

The special meeting called to discuss school matters in connection with the Fram School district resulted in no definite decision being reached on the boundary question.

A great deal of talk is going the rounds regarding the C.P.R. Cut Knif, extension. In the words of a former English premier we prefer to "Wait and see."

The trails are good for hauling now, but alas there is little to haul except wood.

The Fram Grain Growers Association will hold their usual monthly meeting on Saturday evening next at 8 o'clock.

Te Artland school is certainly making things hum to start with. Be on hand for the chicken supper, Friday night. A good time is promised.

Our sympathies go out to Andy Ferguson in his irreparable loss.

Let the knowers strike—no one wants them on the job anyway.

Editorial
AGRICULTURAL GRANTS

Why give a grant?
Does it pay?
Who gets the money?

The subject of granting money to the agricultural society was discussed from several angles at the annual meeting of the ratepayers a week ago. They agreed. They agreed that a grant should be given, and a good grant should be given to the agricultural society. The reason for this agreement was a common recognition that the money would be spent in permanent improvements, or in other words, that assets corresponding to the amount of the grant might be accumulated—preferably in buildings, such as stock shelters, etc.

That the amount of the grant is spent upon providing merely a dry recreation for the society is a possibility, either by the council, or by the officers of the agricultural society.

MONEY NOT SPENT ON PRIZES

Nor do we find, on analysis that the amount of the grant is liable to be spent upon prizes, or prize money. In any given class there is a fee of ten per cent, in addition to the membership fee, to be paid by the exhibitor; and there is about a sixty per cent of the prize money paid by the government in the form of a grant. Under these circumstances, if

the society receive a fair number of entries, it can make both ends meet. The degree of success by the Chauvin society, in this respect is creditable.

PRIZE WINNING NOT MONEY MAKING

Again looking at this phase of the question from the point of view of the exhibitor. He cannot, under any circumstances make money by exhibiting his stock, or produce, at the local fair. What with the time and labor spent it is quite impossible. He enters, maybe because of indirect benefits, but chiefly because of his keen interest and love of his avocation. And because of this is proud of his work, and delights in beating the other fellow to it. At the same time and in the fraternity of his calling he finds it quite impossible to compare notes and the touchstones of his neighbors progress. Surely there can be no greater stimulus than this, (other than the obvious one of a fair price for the produce).

Generally speaking the prize money is paid by the exhibitor himself and the provincial government. The society finds it a task of arduous difficulty to pay necessary operating expenses. And it looks for grants to enable it to carry out a program which shall provide the necessary accommodations for a fair ground.

A SOURCE OF PROFIT

There can be shadow of doubt that

it pays. The Chauvin fair grounds have been for the past few years one of the landmarks for travellers on the trains. Chauvin is instantly recalled by the aid of its fair ground. If there is such a thing as advertising —this is the finest advertisement we possess. A good strong fair is a source of profit for all—townsfolk, farmers and owners alike. It is a short-sighted viewpoint that sees only what it costs, and what it costs them in particular, and that fails to see that every forward step brings us toward the ideal for which we should all strive, and incidentally a bigger income whilst on the road to our end—the best and the most profitable in each and every branch of agricultural enterprise carried on in our midst.

ROUNDING OUT THE CIRCLE

We can, and do, look after the social, economic, and political end of our farming interests through our U. F. A.s, but we leave a big gap in the circle if we do not look after the practical end of our business by failing to support the agricultural society. This is foundation work, and the most foundations, are liable to be overlooked by the casual observer.

BUILDING UP ASSETS

Why nobody in particular gets the money. The community as a whole gets the advantage of these grants. Its purely a matter of history, a history of continued personal endeavour

of the part of the enthusiasts of the society, that during eight years the society has accumulated real property worth far more than the sum total of the combined village and municipal grants. These grounds and buildings are at the disposal of the public and are a real asset to the community. It resolves itself into giving the society an opportunity to make good and at the same time to ensure to ourselves some of the conveniences of public holidays and events.

Clara: "I thought you said you'd marry a musical man, and now you've engaged yourself to one who can't even read a note!" Maud: "True, dear; but he can afford to spend them."

TO THE RATEPAYERS OF THE
MUNICIPAL DISTRICT OF
RIBSTONE, No. 421

Card Of Thanks

Ladies and Gentlemen:—

I desire to take this opportunity of thanking you all for your support in the past; and for your mark of esteem in again electing me by acclamation for a further term of office for District No. 2. I assure you that I shall at all times endeavour to serve your interests, and the interests of the whole Municipal District so long as it is my privilege to represent you on the Council.

Yours sincerely,
A. FERGUSON

A. Pettit, Ribstone

Production of Seed In Alberta

According to Dominion Experiment al Farm experience at Lethbridge and Lacombe, Alberta, offers splendid opportunities for seed production. In 1916 a hundred bushels of six-rowed barley was imported from the state of Idaho, where it had been grown with improvement for a number of years. Sown on a twenty-acre patch in Southern Alberta it yielded 75 bushels to the acre, but at Lethbridge and Lacombe the high yields of 100 and 115 bushels respectively were obtained. A well-versed United States Traveller testifies that in his opinion seed of exceptional quality could be grown in Alberta including seed wheat, oats, barley, peas, flax, alfalfa, sweet clover, red clover, timothy, horse grass, western rye and or many kinds of vegetables. It is a fact not generally known that for years past purchases of seed oats from the middle states have made Al-

School Supplies—Chauvin Pharmacy

for the multiplication and distribution of pure seed were established in Alberta and have proved satisfactory. In the irrigated districts of Southern Alberta, grafting success has been achieved in the governing of seed, especially that of alfalfa of which the yield runs fourteen bushels to the acre.

Premium For Bacon Hogs

Grading of hogs offered for sale throughout the Dominion has been approved and is scheduled to be put into force on May 1st, 1922, by the Dominion Department of Agriculture after its desirability had been endorsed at a conference of breeders, producers, market officials and packers. This is regarded as the longest step forward to set the national bacon industry on a sound basis since the early days, thirty years ago, when the bacon hog was first popularized.

Pianos & Organs

GOURLAY PIANOS
MENDELSSOHN
PIANOS
ESTEY ORGANS

A. C. GIFFORD,

By selecting a new Piano through your local dealer, and having it shipped direct to you from the eastern factory where it is made, you save over 300 miles of freight charges, being the distance from Chauvin to Edmonton and from Edmonton back to Chauvin.

The following well known instruments have no superior among Canadian made pianos.

For Best Terms and Prices see or write,

CHAUVIN

Its importance lies in the three following features:—

1. The grading sets an authoritative standard for our bacon hog.

2. It enables breeders and farmer-producers to aim more exactly for the ultimate market, in Canada and in Great Britain.

3. It puts a definite premium on the bacon hog which was agreed should not fall below 10 per cent. over the fat hog.

The following classification into nine grades was unanimously approved:—

Select Bacon Hogs:—Jowl and shoulder light and smooth, back from neck to tail evenly fleshed, side long, medium depth dropping straight from back, ham full, good general finish, no excess fat, weight 160 to 210 pounds.

Thick Smooth Hogs:—Not conforming to Wiltshire standard, but of smooth fleshing and finish; weight 160 to 210 pounds.

Heavies:—Type of smooth fleshing and finish, weight 210 to 260 pounds.

Extra Heavies:—Any type of smooth fleshing and finish; weight over 260 pounds.

Lights and Feeders:—Any type of smooth conformation, unfinished; weight 160 pounds and under.

Any weight.—All females that have raised one or more litters: No. 1. sows of smooth finish and smooth underline up to 250 pounds: No. 2. all other sows.

Stags:—Hogs that have been castrated, and are well healed before being offered for sale. The above weights are at stock yards and packing plants; farm weights, therefore, will rule from 10 to 15 pounds more for the respective grades.

One thing in this movement that overcomes the rest is the general recognition that the future of hog breeding in Canada depends directly upon the production of the proper bacon type, both for the export and domestic trade. This recognition is not new; it has been a trend within the industry for a quarter of a century. But recently it has weakened through war conditions and the interests of the farmer types. The records of its importance at Ottawa gives it new life and vitality.

SKYWARD

Professor of Chemistry:—"If anything should go wrong in this experiment, we and the laboratory with us might be blown sky high. Come closer, gentlemen, so that you can observe, gentlemen, so that you may be better able to follow me!"

NERVOUS OR NAUGHTY

Mrs. Blank had been blue and irritable all morning and her little one suddenly asked, "Mamma, why is it that when it's me they call it naughty, but when it's you they call it nervous?"

Ribstone U. F. A.

RIBSTONE U.F.A.

Ribstone Local U.F.A. No. 867,
held a meeting Saturday, Feb. 25th.
A good number being present.

The minutes were read and approved, also accounts ordered paid.
Discussion of same, were ordered filed.

The balance of meeting was spent in, talking over the advisability of a Beef Ring for the coming summer. The following named persons were chosen as a committee on same to gather information and report at next meeting.

John Dallyn, A. Dallyn, H. S. Burton.

Ribstone Notes

Born to Mr. and Mrs. Thos Coles,
a son February 22nd. Mother and baby doing fine.

We are glad to report Mrs. James Royce is recovering from a very severe attack of pleurisy.

Mr. Brockman Burton drove to Unity Thursday last, to visit friends.

Ribstone looked like a deserted village Monday, owing to the election. Mr. W. Chasler has put in another pool table. Business must be looking up "B.L."

A Sheriff's sale of furniture including range, leather covered chairs etc. will be held at Ribstone, March 6th at 2.30 p.m.

ANOTHER INNOVATION IN C.N.R. PASSENGER EQUIPMENT

In line with the general policy of providing the travelling public with most up-to-date improvements in passenger equipment to the convenience of its patrons, the Canadian National Railways are now installing in all their day coaches, tourist and standard sleepers, parlor observation cars etc., Finback drinking cup holders so as to permit passengers to readily secure individual drinking cups, when desired.

The cups will be provided by the patrons free of charge, and to ensure an adequate supply always being on hand in each car, arrangements have been made whereby the Finback drinking cup receptacles will be filled at divisional points when necessary.

This new feature in passenger the Canadian National Railways' de-

sign to furnish the travelling public with the most modern improvements and character service.

IMMIGRANTS

Alluding to a statement made by Senator G. F. Pearce, in a recent address before the Canadian club in New York that the participation by the dominion in the Washington conference gave them a share in the empire's future policy, the Times says one of the greatest results immigration must accomplish is to ensure that the direction of the future policy of which Senator Pearce spoke is carried out by the dominion not for individual gain, but for the empire as a whole.

Two actors were waiting to see a theatrical manager, in view of obtaining an engagement, and during the wait they were boasting of their theatrical engagements. "Ah, by boy," said one, "when I played Hamlet the audience took fifteen minutes to leave the theatre." The other actor looked at him. "Oh," he inquired gently, "was he lame?"

Rheumatism?

Apples In Manitoba

Wherever grown in Manitoba the improved types of crabapples bear prolifically in some districts. Apple culture in Western Canada is steadily increasing; such progress has been in fact, that Mr. J. H. Evans, deputy minister of agriculture, Manitoba, recently declared that apples would soon be found in nearly every farm in the country. Quite a number of varieties are now produced and the quality is excellent. Other tree fruits such as plums and cherries, have al-

so been successfully introduced through the efforts of government horticulturists and lay enthusiasts.

Insurance Agent—"But you surely agree to taking out an insurance policy to cover your burial expenses?"

Wily Scot—"Na, na, mon; I might be lost at sea!"

RODDEN—KING

The marriage of Miss Ruby C. Rodden daughter of Lieut. Col. and Mrs. Rodden of Chauvin, to Mr. L. King of the Merchants Bank, Mundare, took place at St. Joseph's Rectory, Edmonton on Sunday February 26th 1922.

Rev. Father Patton officiated at the ceremony.

Miss Mollie B. Rodden, sister of the bride acted as bridesmaid, the bridegroom being supported by Mr. J.

A MacKenzie of Chauvin. Mr. and Mrs. King have taken up their residence at Mundare.

We join with their many friends in wishing Mr. and Mrs. King the best of health and happiness.

Local Notes Of Interest

The marriage of Miss Alma Godin to Mr. Fred Anderson was celebrated at the Sacred Heart Church Monday morning. Our account will appear next week.

Owing to late calls for advertising space, we are compelled to leave several letters over for the next issue.

A business meeting of the members of the St. Andrew's society will be held at the residence of Mrs. R. H. Mann, Chauvin, 3 p.m., Saturday, March 4th.

A very pleasant time was spent at the G. W. V. A. social and dance Friday last at the Oddfellow Hall. A short program was given and music was supplied by the Chauvin G.W.V. A. Symphony Orchestra.

The local members of the 19th Alberta Dragoons are back from their school of training at Calgary. They are all looking well and report having had an enjoyable time with lots of hard work.

The annual meeting of the members and congregation of the Westminster Church will be held at the termination of the evening service, next Sunday, March 5th. The church managers particularly request the attendance of every member of the con-

gregation can find it possible to be present.

Mr. and Mrs. Gar Lawson were business visitors to Chauvin, Tuesday.

A dance will be held in Prosperity School on March 17th. Proceeds are to be devoted to the stable fund.

A dance will be held at Bert Johnson's farm, N.E. 12-46-1 Friday, March 3rd. Everybody welcome.

Rev. N. A. T. Braa, of Viking paid a pastoral visit to the congregations at Roror, Zion (Dina) and Normanna. Services were conducted at Roror in the forenoon, Zion in the afternoon, and Normanna in the evening.

Dorothy Jeanette, infant daughter of Mr. and Mrs. Klein Dufft was christened at the home of the parents by Rev. Braa, last Sunday.

Irene Clara daughter of Mr. and Mrs. Chris Dyte was christened at the home of the parents on Sunday last, by Rev. Braa.

The regular monthly meeting of the Westminster Ladies Auxiliary will be held on Thursday, March 9th at 3 p.m. at the home of Mrs. C. G. Forryan.

A choir practice will be held every Thursday evening at 8 p.m. at the home of Mrs. Keith. All those willing to form a choir are invited to be present.

Premier Greenfield has announced that the budget will be brought down on February 27th.

Mr. J. Snell Sr. made a business trip to Edmonton this week.

Mr. Laws, who spent Sunday in Edmonton, returned on Monday.

The Stannore school opened Monday, February 27th with Mrs. Stacey as teacher.

Miss Mollie Rodden returned from Edmonton, Monday.

The marriage recently took place at Lebannister of Mr. Oscar Johnson, of Dima to Miss Emma Myhre, also of Dima.

Mr. Silhus Dufft has also joined the benedictines, having recently been married at Edmonton.

Despite the steady cold which has prevailed during the month of February, the horses are reported as doing extremely well, and most of the cattle keeping in good condition.

Flour has advanced in the last 15 days \$1.25 a barrel. But you can still purchase that 100 loaf of bread the same weight as before flour advanced, at The Chauvin Bakery.
